

MARINE SERVICES

www.stewartandstevenson.com

Stewart & Stevenson, an integrated oilfield services company, is a global provider of custom marine packages for commercial, naval and government vessels and offshore rigs. Our marine engines provide power for propulsion, ship's service generators, barge unloading pumps and auxiliary equipment on crew boats, fast ferries, tank barges, offshore tug boats, offshore supply vessels, harbor tugs and towboats. Our skid mounted marine drilling units provide power for drilling, dynamic positioning, propulsion and ship's service generators on offshore rigs.

Designed with advanced engines, electronic controls and diagnostic systems for arduous, continuous-duty operation, our marine power packages are as enduring as our company. After all, Stewart & Stevenson has been around for more than a century.

In addition to our custom marine packages, Stewart & Stevenson provides aftermarket support that includes:

- New Engines
- Rebuilt Engines
- New Auxiliary Transmissions
- New Propulsion Marine Gear Products
- Generators
- Controls
- Parts & Service
