

24/7 RENTAL SOLUTIONS

WE BRING **BIG POWER**

We keep your operations running smoothly

Our extensive fleet of reliable generators, compressors, pumps, and forklifts is ready for rapid deployment, ensuring you have the power and equipment you need, when you need it.

Backed by expert technicians and unmatched service, we provide reliable, turnkey solutions to keep your business moving without interruption.

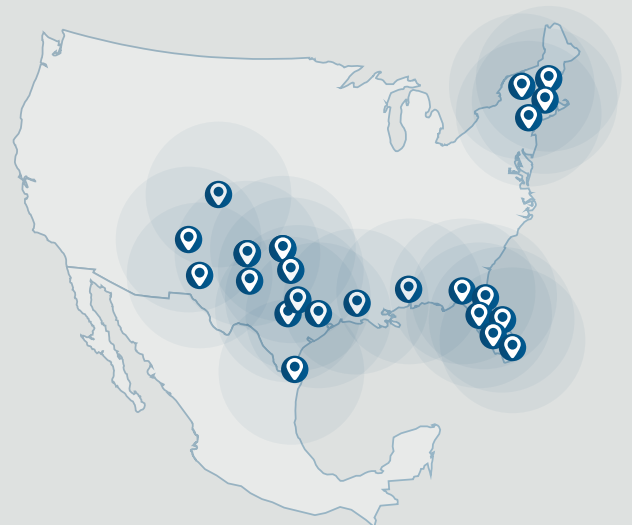

Our **Services**

- Turnkey power solutions
- Contingency planning
- Delivery, setup and tear-down
- Service, support and maintenance
- Fueling and more

Our **Footprint**

- Locations in nine states
- 26+ branches
- Mobile Command Center
- Responded to all 30 impacted areas during the 2024 hurricane season

Portable **Generators**

Ranging from 100-2000 kW, ideal for standby or prime power applications, including new construction, municipal, disaster relief, and hospital applications.

- Single or parallel, skid-mounted or trailer-mounted, sound attenuated
- 50 Hz or 60 Hz operation capability, single-phase or three-phase voltages
- Double-walled fuel tank with 24-hour onboard fuel capacity, 1000 kW and below
- 3-way fuel valve to easily connect external fuel source for extended run on select units
- Customer convenient cable connections
- Hi/Lo voltage switchover on select units below 1000 kW
- Auto start operation available on all units

Portable & Electric **Compressors**

400 - 1800 CFM air compressor units serve industrial, oil and gas, petrochemical and medical industries.

- Electric, oil free and diesel, in portable and stationary units offering from 400 cfm to 1800 cfm
- Aftercoolers (5 to 20°F approach) that remove 65 to 70% of the moisture from the compressed air
- Refrigerated and desiccant air dryers that provide from 10 cfm to 20,000 cfm (+38 to -100°F dew point)
- Compressed air filters that supply instrument quality air

Portable & Electric **Pumps**

Its become increasingly difficult to anticipate where flooding will occur; even areas that are usually considered low risk are being adversely affected.

Our fleet of Portable Electric pumps range from **16 - 9000 GPM**. Our rental equipment expertise comes from years of insight serving the construction and emergency services industries and business communities.

- Focused on reducing fuel consumption, made to suit any environment
- One pump can cover multiple applications thanks to a modular design
- Tested, performed and verified in the toughest working conditions
- Portable and stationary units offering from 400 cfm to 1800 cfm

Industrial **Lift Trucks**

Rental units offering **10,000 to 55,000 lb lift capacities** fulfill material handling operations on the oil rig platform, on the loading dock, on the assembly line, at the cotton gin, on the construction site and in the warehouse.

- LPG and diesel fuel choices application
- Power Rental experts are always available to assist clients in selection of lift truck needs
- S&S branded Tier 4 Final diesel lift trucks offering 17,500 to 36,000 lb lift capacities
