

24/7 RENTAL SOLUTIONS
WE BRING BIG POWER

We keep your operations running smoothly

Our extensive fleet of reliable generators, compressors, pumps, and forklifts is ready for rapid deployment, ensuring you have the power and equipment you need, when you need it. Backed by expert technicians and unmatched service, we provide reliable, turnkey solutions to keep your business moving without interruption.

Our **Services**

- Turnkey support
- Contingency planning
- Delivery, setup and tear-down
- Service and maintenance
- Fueling and more

Our **Footprint**

- Locations in nine states
- 26+ branches
- Mobile Command Center
- An extensive fleet, maintained, and ready when you need it

Portable **Generators** 100-2000 kW

Our generators are ideal for standby or prime power applications, including new construction, municipal, disaster relief, and hospital applications.

- Single or parallel, skid-mounted or trailer-mounted, sound attenuated
- 50 Hz or 60 Hz operation capability, single-phase or three-phase voltages
- Double-walled fuel tank with 24-hour onboard fuel capacity, 1000 kW and below
- 3-way fuel valve to easily connect external fuel source for extended run on select units

- Customer convenient cable connections
- Hi/Lo voltage switchover on select units below 1000 kW
- Auto start available on all units

Portable & Electric **Compressors** 400-1800 CFM

Our air compressor units serve industrial, oil and gas, petrochemical and medical industries.

- Compressed air filters that supply instrument quality air
- Aftercoolers (5 to 20°F approach) that remove 65 to 70% of the moisture from the compressed air
- Electric, oil free and diesel, in portable and stationary units offering from 400 CFM to 1800 CFM
- Refrigerated and desiccant air dryers that provide from 10 CFM to 20,000 CFM (+38 to -100°F dew point)

Portable & Electric **Pumps** 19-9000 GPM

Our fleet of Portable & Electric Pumps range from 16-9000 GPM. Our rental expertise is built on years of experience serving the construction, mining, and emergency services industries.

- Tested and verified in the toughest working conditions
- Focused on reducing fuel consumption, made to suit any environment
- One pump can cover multiple applications thanks to a modular design
- Portable and stationary units available

Industrial **Lift Trucks** 10,000-55,000 lb lift capacities

Rental units offering a wide range of lift capacities fulfill material handling operations on the oil rig platform, on the loading dock, on the assembly line, at the cotton gin, on the construction site, and in the warehouse.

- Power Rental experts are always available to assist clients in selection of lift truck needs
- Stewart and Stevenson branded Tier 4 Final diesel lift trucks offering 17,500 to 36,000 lb lift capacities
- LPG and diesel fuel choices application
